

Halifax Lancers Junior Executive's Heppy's Pies Fundraiser

Halifax Lancers - *build better lives through horses*

Halifax Lancers is a non-profit riding school and therapeutic riding centre. The only urban non-profit riding school in Canada, Lancers was founded in 1936 to make horses and riding accessible to children living in the city of Halifax. Lancers' programs serve a diverse community of nearly 200 riders of varying abilities ranging in age from 8-70. Our programs help riders develop confidence, responsibility, community-mindedness, and sustain their physical and mental health.

As a non-profit, Lancers owns and cares for all 27 horses who need food, water, bedding, veterinary care, and shelter. To keep the horses healthy and happy, our riders safe, and our programs and barn operating, Lancers has to fundraise.

Junior Executive - *Youth making a difference*

The Lancer Junior Executive is a youth-led initiative that allows junior riders to contribute to the Lancer organization in ways that are meaningful to them, often with the help of fundraising initiatives.

Junior Executive's current goal is to update and replace tack and equipment for the horses. Such updates will help keep the horses comfortable in their daily lessons, and riders use equipment easily, properly, and safely.

You can help!

This fundraiser supports a local Halifax business, Heppy's Pies, and \$3 from each pie sold will go to this fundraiser. Junior Executive's goal is to raise **\$900**.
